Master Blend #5 Non-acid Bowl Cleaner M2210

A super concentrated bowl cleaner and disinfectant. The half gallon containers are designed to be used with the Master Blend Dispensing System and color-coded quart bottle system. Economical and easy to use.

Where To Use

Athletic facilities	Restrooms	Schools
Health clubs	Offices	Restaurants
Hospitals	Colleges	Institutions

Dilution

The Master Blend Dispensing System automatically dilutes at a rate of .25 oz. per quart 1/128 (1oz/gal).

Directions

For use with Master Blend Dispensing System - place matching color coded quart bottle on filling tray, inserting fill tube into quart. Depress appropriate button to automatically dilute product into secondary container.

To clean and disinfect toilet bowls - remove or expel over the inner trap residual bowl water prior to applying use solution. Use 1 oz. of product in toilet bowl. Squeeze around bowl and under rim. Then scrub thoroughly with brush. Let stand 10 minutes then flush.

For urinals - add 1 oz. of product. Then scrub thoroughly with a brush. Let stand 10 minutes.

For disinfecting - Remove gross food particles and heavy soil deposits, then thoroughly wet surfaces. Apply diluted solution by mop, sponge, cloth or spray on hard nonporous surfaces for a minimum contact time of 10 minutes.

Mildewstatic instructions - Apply diluted solution by spraying, making sure to wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

HIV-1 (Aids Virus) - The areas to be disinfected must be precleaned of all blood and body fluids. Please read label instructions for use in HIV-1 disinfection.

Master Blend # 6 Disinfectant

M2260

A super concentrated quaternary ammonia detergent and disinfectant. The half gallon containers are designed to be used with the Master Blend Dispensing System and color coded quart bottle system. Economical and easy to use.

Master Blend
Concentrates

Where To Use

Hospitals	Athletic Facilities	Rest rooms	Health Care Facilities
Schools	Nursing Homes	Telephones	Garbage Can & Storage Areas
Offices	Restaurants	Bars	Floors, Walls, Tables, etc.

Dilutions

The Master Blend Dispensing System automatically dilutes at a rate of .25 oz. per quart
1/128 (1oz./gal).

Directions

For use with Master Blend Dispensing System - place matching color coded quart bottle on filling tray, inserting fill tube into quart. Depress appropriate button to automatically dilute product into secondary container. Preclean extremely dirty areas and remove any obvious gross dirt. Dilute, based on the table above. Depending on the application, apply diluted solution with a mop, cloth, sponge or trigger sprayer. Wet all surfaces thoroughly and allow to remain wet for 10 minutes. Remove excess liquid. Prepare a fresh solution for each use. **To Disinfect toilet bowls** – Flush toilet, add 1 oz. of product directly into the bowl water. Swab bowl completely, including under the rim. Let stand 10 minutes, then flush. **HIV-1 (Aids Virus)** – The areas to be disinfected must be precleaned of all blood and body fluids. Please read label instructions for use in HIV-1 disinfection. It is in violation of Federal Law to use this product in a manner inconsistent with its labeling.
