

Packed: 12 qts./cs., 4 gal./cs., 5 gal. unit, 55 gal. drum

Pour or inject Nilozyme with free enzymes into plumbing, grease traps and septic tanks to break down and digest solids and eliminate odors. Nilozyme also effectively treats solids and odors in lagoons and garbage chutes.

For best results, use the Pail Top Metering Dispenser. Economical and easy to use, the dispenser reduces labor costs while guaranteeing proper dosage every time! Fits on to 5 gallon pail.

*Dispenser sold separately.

Digest Solids and Eliminate Odors

The most advanced technology in biochemistry is now available.

Nilozyme contains multiple strains of bacteria with "Free Enzymes," which allow for faster breakdown of organic matter. This trap and drain treatment will liquefy and consume complex proteins, cellulose, starches and other organic waste found in grease traps, drain lines, septic tanks and lagoons. Nilozyme can withstand high temperatures, and is resilient to bleach, disinfectants, chlorine and many other cleaning chemicals. This product also contains a proprietary odor counteractant for immediate relief of odors.

Nilozyme is formulated with selected strains of bacteria which are non-toxic, non-pathogenic, non-corrosive and certified salmonella- and pseudomonas-free. Nilozyme contains over 200 billion micro-organisms per gallon.

Use Nilozyme™ To Digest and Control Odors In:

- PLUMBING
- GREASE TRAPS
- SEPTIC TANKS
- HOLDING TANKS
- LAGOONS
- GARBAGE CHUTES
- PORTA-TOILETS

NILOZYME™ AUTOMATIC DISPENSING SYSTEM

Trap & Drain Treatment

NILOZYME AUTOMATIC DISPENSER

NSP 1733

NILOZYME	Qt.	Gal.	5 Gal.	55 Gal.
Original	32-ZNM	128-ZNM	130-ZNM	55-ZNM

Suggested Uses and Directions:

APPLICATIONS	PROBLEMS	DILUTION	RECOMMENDATIONS
Kitchen, Laundry, Bathroom Drains	Solids and odors	Straight	Pour or inject 3-6 oz. of Nilozyme into drain twice weekly.
Grease Traps	Solids and odors	Straight	Pour or inject 18 oz. of Nilozyme daily for large volume restaurants (fast food). Use 8-10 oz. daily for small/medium volume.
Septic Tanks	Solids and odors	Straight	For initial treatment, pour or inject 1 quart of Nilozyme for each 500 gallon capacity. Thereafter, add 16 oz. for each 500 gallon capacity once a week.
Lagoons	Solids and odors	Straight	Add 5 gallons of Nilozyme per acre surface for initial treatment. Thereafter, use 2 gallons per acre surface once a week.
Garbage Chutes	All odors	1:4	Mix 4 oz. Nilozyme with 16 oz. of water. Pour, inject or spray into chutes or dumpsters daily.

CAUTION: KEEP OUT OF THE REACH OF CHILDREN. For Professional Use Only. Not for internal consumption. If product is ingested, induce vomiting and consult physician. If contact occurs with skin, wash with soap and water. If the product comes in contact with eyes, flush with copious amounts of water. If any irritation persists, contact physician. For additional information/precautions refer to material safety data sheet or product label.
